Best blade in the industry

The unique design of our cheese blade produces clean and consistent slices. The hardness results in a long lasting sharp edge. The life of the blade is dramatically longer than the competition. Our blade is the hardest, thinnest, largest, straightest blade in the industry.

- 13" diameter, grooved cheese blade, channeled blade chromium coated hard alloy
- 60-62 Rockwell hardness at the edge
- Accurate slicing on even the most demanding cheese products over a wide temperature range

Gauge plate closed, safe to unplug for cleaning - green.

Gauge plate open and motor running, ready to slice - solid red.

Warranty

The GSP H Safety Slicer carries a one-year, on-site parts and labor warranty against any flaws in materials and workmanship. This period begins with the date of purchase and, provided the unit is used properly in accordance with our instructions, is in full effect for one year from that date. Any work to be performed under this warranty must be performed between the hours of 8:00 a.m. and 4:30 p.m. local time, Monday to Friday. Bizerba will not pay over-time charges for work performed other than during normal business hours. Accessories have a 30-day replacement or repair warranty for the period beginning on the date of purchase. Damages incurred in transit or from installation error, accident, alteration or misuse are not covered. Transit damages should be reported to the carrier immediately. Bizerba shall not be liable for any consequential, compensatory, incidental, or special damages. All warranty work must be performed by a factory authorized Bizerba Representative.
