SG Series

Model #: **SG1496**

Stainless Steel Worktop Table

Features:

Created with the best materials and parts to give the customer a long-lasting workspace, a dependable product price, and outstanding food safety.

A cost-effective method to guarantee that your commercial restaurant employees have a dependable and long-lasting prep area.

External stainless steel, 300 series. Superior quality stainless steel with increased tensile strength to prevent scratches and dents.

To prevent cuts from sharp edges, the table was hemmed.

With its sturdy stainless-steel top, this model is ideal for wall mounting and keeps foods items on the table safe.
